

Download Multi Targeted Approach To Treatment Of Cancer

The incidence of thyroid cancer has also doubled over the last 30 years, due to improved imaging modalities (3). The majority of thyroid cancers are of the well differentiated type. Cancers arising from follicular epithelial cells include papillary carcinoma, follicular carcinoma, and Hurthle cell carcinoma. This book emphasizes a multi-targeted approach to treating cancer, the focus of the 5th International Conference on Translational Cancer Research that was held in Vigyan Bhawan, Delhi (India) from Feb 6-9, 2014. A multi-targeted approach for treating pancreatic cancer International Conference on Pancreatic Disorders and Treatment October 17-19, 2016 Chicago, USA This book emphasizes a multi-targeted approach to treating cancer, the focus of the 5th International Conference on Translational Cancer Research that was held in Vigyan Bhawan, Delhi (India) from Feb 6-9, 2014.
